

Drashti Miteshkumar Mehta

Denton Tx | 940-843-9280 | mdrashti143@gmail.com | [Portfolio](#) | [LinkedIn](#)

CARRER SUMMARY

Data Scientist and Analytics Professional with 3+ years of experience building machine learning models, statistical analyses, experimentation frameworks, and data solutions using Python, SQL, and cloud technologies. Experienced in business analytics, forecasting, ETL pipelines, and translating complex data into actionable business insights.

EDUCATION

University of North Texas | Denton TX
M.S in Data Science

May 2025

Gujarat Technological University | Gujarat, India
B.E in Information Technology

April 2022

PROFESSIONAL EXPERIENCE

KGS Technologies, Data Scientist | (Remote)

Aug 2025 - Present

- Built and validated statistical and machine learning models using Python, SQL, and Scikit-learn on large-scale datasets to improve forecasting accuracy and support data-driven decision-making across teams.
- Conducted experimentation and regression-based analysis to identify key business drivers, evaluate model performance, and improve forecasting reliability.
- Developed ETL pipelines to clean and transform multi-source data, reducing manual effort by ~25% and improving data reliability.
- Collaborated with cross-functional teams to troubleshoot data issues, resolve inconsistencies, and improve data workflows and integrity.

University of North Texas, Graduate Research Assistant | Denton, TX

Aug 2024 – Dec 2024

- Evaluated RAFT, RAG, and traditional fine-tuning approaches using experimentation frameworks and statistical evaluation metrics to benchmark domain-specific LLM performance.
- Built and optimized LLM pipelines for clinical summarization, enhancing evaluation accuracy and supporting scalable experimentation across multiple model configurations.
- Documented reproducible research workflows and results, strengthening data governance and experimental rigor.

HCL Tech, Data Analyst Summer Internship | Dallas, TX

May 2024 – June 2024

- Analyzed and cleaned large datasets using Python (Pandas, NumPy) to uncover trends and ensure data accuracy.
- Built Tableau dashboards to communicate insights clearly, enabling data-driven storytelling for stakeholders.
- Automated data workflows and partnered with cross-functional teams to deliver timely, actionable insights.

John Deere, Business Strategy & Analytics Consultant | Vadodara, India

Oct 2021 – June 2023

- Led a data-driven analytics practice, building KPI dashboards and forecasting models to improve visibility into business performance and support strategic planning.
- Analyzed and modeled 100K+ sales and operational records using statistical analysis and predictive modeling techniques to identify customer behavior trends and improve operational efficiency by ~15%.
- Standardized reporting frameworks and collaborated with 50+ stakeholders, improving data consistency and reliability of business insights.

Volansys Technologies (An ACL Digital Company), Full Stack Developer (Data Team) | Ahmedabad, India

Aug 2021 - Dec 2021

- Developed and deployed full stack applications using Python, Flask, and ReactJS to streamline internal workflows, improving workflow efficiency and enabling faster access to data insights for production teams.
- Designed backend APIs and optimized data processing pipelines to oversee high-volume data, improving system performance and scalability by approx. 20%.
- Conducted data analysis and debugging to identify recurring issues, reducing system errors and improving application reliability and user experience.

Brainy Beam Technologies Pvt. Ltd. , Summar Data Science Intern | Vadodara. GJ

May 2021 – June 2021

- Built 2 projects, a Weather Prediction using Regression Model and a Music Recommendation System using Sentiment Analysis.
- Collaborated with co-intern in making Book Recommendation System.
- Technologies Used – Python, Exploratory Data Analysis, Machine Learning, Natural Language Processing.

BIT Infotech, Data Analyst | Vadodara, India

Mar 2020 – Mar 2021

- Analyzed structured and unstructured datasets using Python (Pandas, NumPy) to generate actionable insights and support business decision-making.
- Built and evaluated machine learning and NLP models using data preprocessing and feature engineering techniques, improving predictive performance and model reliability.
- Developed dashboards and reports to communicate insights, improving reporting efficiency and enabling stakeholders to make informed, data-driven decisions.
- Monitored and resolved data inconsistencies and pipeline failures, ensuring reliable data delivery to stakeholders

SKILLS

Technical Skills:

- Languages: Python, SQL, R, Java
- Machine Learning & AI: Regression Modeling, Statistical Analysis, Experimental Design, Model Validation, Data Mining, Feature Engineering, Forecasting Models, Anomaly Detection, Scikit-learn, TensorFlow, NLP, LLMs (RAG, RAFT, Hugging Face), AI-Assisted Development (GitHub Copilot, Claude, OpenAI Codex)
- Data Analytics & Business Intelligence: Pandas, Excel, NumPy, A/B Testing, Hypothesis Testing, ETL, Data Validation, Data Quality, Data Integrity, Forecasting, Statistical Modelling, Data Modelling, Tableau, Power BI
- Cloud & Tools: AWS, Big Query, Git, Jupyter Notebook, VS Code, Colab

Business Skills: Stakeholder Collaboration, Cross-Functional Communication, Team Leadership, KPI Development, Data-Driven Decision Making, Process Optimization, Root Cause Analysis

PROJECTS

- **Med-Eval - LLM-Based Clinical Summarization Evaluation System** : Developed MedEval, an LLM-based clinical summarization evaluation framework using LLaMA-2-7B and Mistral-7B on the MIMIC-III dataset; benchmarked performance using G-Eval, ROUGE, BLEU, and CoT prompting.
- **Lifestyle Determinants of Obesity** : Analyzed 2,000+ records using Python and Tableau to identify key lifestyle and demographic drivers.
- **Predictive Analysis of Financial Market Trends** : Developed time-series forecasting models and dashboards to track stock performance and trends.

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- Accenture North America Data Analytics and Visualization Job Simulation - Forage
